Contra Costa County

Office of COUNTY AUDITOR-CONTROLLER

625 Court Street Martinez, California 94553-1282 Telephone (925) 646-2181 Fax (925) 646-2649

Kenneth J. Corcoran Auditor-Controller Stephen J. Ybarra Assistant Auditor-Controller

December 5, 2001

Members of the Board of Supervisors and Citizens of Contra Costa County:

The Comprehensive Annual Financial Report (CAFR) of the County of Contra Costa for the fiscal year of 2000-2001 is presented in compliance with Section 25253 of the Government Code of the State of California. The Office of the County Auditor-Controller, which is responsible for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, prepared this report. We believe the data, as presented, are accurate in all material aspects and presented in a manner designed to fairly set forth the financial position and results of operations of the County as measured by the financial activity of its various funds, and that all disclosures necessary to enable the reader to gain the maximum understanding of the County's financial affairs have been included.

The CAFR represents the culmination of all budgeting and accounting activities engaged in by management during the year, covering all funds and account groups of the County and its financial transactions. The CAFR is organized into three sections:

- The Introductory Section is intended to familiarize the reader with the organizational structure of the County, the nature and scope of the services it provides, and the specifics of its legal operating environment.
- The Financial Section includes the audited general-purpose financial statements, its notes thereto, supporting statements and schedules necessary to fairly present the financial position and the results of operations of the County in conformity with accounting principles generally accepted in the United States of America and the independent auditor's report on the general-purpose financial statements.
- The Statistical Section contains comprehensive statistical data for the County relating to its physical, economic, social and political characteristics.

The County reporting entity includes all the funds and account groups of the primary government as well as all of its component units. Component units are legally separate entities for which the primary government is financially accountable or other organizations for which the nature and significance of the relationship with the primary government are such that exclusion would make the enclosed financial statements misleading or incomplete. By this definition, the reporting entity includes 47 component units: the Contra Costa County Public Facilities Corporation, the County of Contra Costa Public Financing Authority, the Housing Authority of Contra Costa County (included as of and for the year ended March 31, 2001), the Contra Costa County Redevelopment Agency, the Contra Costa County Employees' Retirement Association (included as of and for the year ended December 31, 2000), the Contra Costa Children and Families Commission; the Contra Costa In-Home Supportive Services Public Authority and 40 County Special Districts and Service Areas.

The reporting entity excludes certain separate legal entities which may have "Contra Costa" in their title, or which are required to keep their funds in the County Treasury or receive their tax apportionment from the County. Examples are school districts, the community college district, cities, city redevelopment agencies, the Bay Area Rapid Transit District, the Metropolitan Transportation Commission, and a variety of special purpose districts for cemeteries, mosquito abatement, recreation and parks, etc. These entities are autonomous organizations that handle their own fiscal affairs and for which the Board of Supervisors has no oversight responsibility. Accordingly, they are not included in the accompanying general purpose financial statements, except for their assets, principally cash and investments, which are held by the County Treasurer.

The County provides the full-range of services contemplated by statute. These services include public protection, highways and streets, sanitation, health and social services, planning and zoning and general administrative services.

ECONOMIC CONDITIONS AND OUTLOOK

Contra Costa County was incorporated in 1850 as one of the original 27 counties of the State. It is one of nine counties in the San Francisco-Oakland Bay Area. The County covers about 733 square miles; the western and northern shorelines are highly industrialized, while the interior sections are suburban/residential, commercial and light industrial.

The County has a general law form of government. A five member Board of Supervisors, each elected to four year terms, serves as the legislative body. A County Administrative Officer is appointed by the Board and runs the day-to-day business.

Population and job growth projections remain positive. As of January 1, 2001, the County's population was estimated at 972,103, an increase of 21.9 percent since 1990. A study prepared by the Association of Bay Area Governments projects a 36.0 percent increase in population between 2000 and 2040.

The State's economy has been resilient, in spite of recent challenges. This is supported by current unemployment statistics, which indicate the State's overall jobless rate only increased 0.4 percent since June 2000 to 5.7 percent in October 2001.

The County's October 2001 jobless rate increased 0.5 percent to 3.6 percent. Consistent with historical performance, it was also significantly below the State-wide average of 5.7 percent. The County's economy is very diverse; major industries include petroleum refining, steel manufacturing, chemicals, electronic equipment, paper products, services and food processing. The combination of the above factors contributes to Contra Costa's consistent ranking as a leading county in both per capita and household income.

MAJOR INITIATIVES AND SERVICE EFFORTS AND ACCOMPLISHMENTS

The County continued to explore and initiate ways to improve its operations to provide the most efficient and effective level of service to the public. The following highlights some of the County's major accomplishments, initiatives and service-level efforts for fiscal year 2000-2001:

- The County promptly responded to the statewide energy crisis with great success. A countywide comprehensive energy reduction program was implemented that resulted in an estimated annual savings of \$1,600,000. This was achieved by applying no cost actions, changes in operational standards, low cost retrofits, traffic signal retrofits and major facility retrofits.
- The County continued to enhance its services to children and families. The annual budget of Children and Family Services was redesigned to more closely link program reporting to the Children's Report Card community outcomes for children and families. This budget redesign allows a new level of financial, program and service-level analysis and focuses greater attention to outcome accountability. Additionally, the budget now documents the benefit of the growing allocation of resources to remediation/recovery and prevention/early intervention services rather than costly crisis/safety net services.
- The growing number of homeless continued to be of concern to the County. This year several construction projects addressing this issue were completed: an emergency shelter for single adults in West County; a family transitional center in East County; and an expansion of the Central County single adults and family shelter.
- The Floodplain Management Program, which includes the County Departments of Public Works, Building
 Inspection and Community Development, received one of the best community ratings in the country from the
 Federal Emergency Management Agency (FEMA). This resulted in a 20.0 percent premium discount for flood
 insurance in the unincorporated areas of Contra Costa County, which is estimated to save citizens in
 unincorporated areas of the County \$250,000.
- The County is in the final stages of completing a \$4.2 million telecommunications project that will serve as the
 foundation for a four-to-five year master planned "Public Safety Communications System and Infrastructure".
 The project will upgrade the County's microwave platform, which includes implementing new transmission and
 receiving stations, towers and overall security modernization of microwave and back-up landline
 communications.
- Library service throughout the County continued to be enhanced. The Library began using its Internet home
 page as a public information tool to provide frequent updates on Library news and activities and to tie local
 events to Library collections and programs. Planning also began on the building and renovating of libraries
 throughout the County.
- The County's Board of Supervisors "Zero Tolerance for Domestic Violence" policy was implemented through
 funding of improvements in law enforcement, investigation, prosecution and remediation. This policy was
 implemented to better serve victims, children and elders and to hold batterers more accountable earlier in the
 progressive cycle of domestic and family violence.

- The Sheriff's Office Forensic Services Division entered into a grant-funded program as part of a statewide initiative to examine evidence in unsolved sexual assault cases. The program is designed to help solve these cases, bring resolution to the victims and their families, and prevent future sexual assaults committed by serial offenders. The "COLD HIT" program screens the evidence in these cases and develops DNA profiles for search in California's DNA databank. The Division already identified one rapist through this program and linked a number of other cases to each other through DNA evidence.
- The Employment and Human Services Department continued, in partnership with the community, to provide services to support and protect adults, children, families and the elderly and to promote personal responsibility, independence and self-sufficiency.
 - The Children and Family Services (CFS) Bureau screened nearly 23,000 calls alleging child abuse and neglect, and made 9,893 emergency responses. Over 1,000 families in the County were served through the Family Preservation Program.
 - The Aging and Adult Services Bureaus received and responded to 1,590 allegations of elder abuse. It has developed plans for a new Adult Protective Service unit that will focus on early intervention.
 - As of June 2001, 24.0 percent of CalWORKs families had earnings and the overall caseload dropped 16.0 percent from the previous year. The work participation rate increased from 5.3 percent in June 1999 to 31.8 percent in March 2001. Outreach efforts enabled 1,300 individuals, who were in danger of being sanctioned and losing benefits, to be contacted. Over 1,000 of these individuals re-entered the program.
- The County continued its commitment to support increased access to health care by providing new and expanded health care services.
 - A new hospital scheduling system combines and integrates services in all ambulatory clinics.
 - A new clinical and public health laboratory opened with capacity for more complicated analyses.
 - Contra Costa County has become a leader in the statewide movement toward adoption of the Recovery
 Vision as a guiding principle for mental health service delivery systems. This mental health model is
 based on the concept of recovery from severe mental disorders.
 - All ambulatory health centers were connected to the countywide Immunization Registry, resulting in significant improvements in immunization compliance rates.
 - In collaboration with Probation, Courts and the District Attorney's Office, Community Substance Abuse Services (CSAS) became the lead agency in the County for Proposition 36 (Substance Abuse and Crime Prevention Act of 2000). CSAS created a system of treatment to serve probation and parole referrals that was implemented in July 2001.

FINANCIAL INFORMATION

County management is responsible for establishing and maintaining internal controls designed to ensure that the assets of the County are protected from loss, theft or misuse, and that accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

Budgetary Controls

The objective of the County's budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the Board of Supervisors. Budgetary control is maintained at the object level for all annually budgeted funds; however, the legal level of control is at the department level. Using the County's automated accounting system, the Auditor-Controller restricts each department's expenditures to the amounts appropriated by the Board of Supervisors for the year. Increases in budget appropriations must be approved by the Board of Supervisors as a transfer from the Reserve for Contingencies, as a transfer from another appropriation, or as an appropriation of new or unanticipated revenue. No department is permitted to spend more than its available appropriations. Any appropriations remaining in the departments at the end of the fiscal year automatically lapse and are transferred to fund balance. The year-end fund balance, along with projected revenues, becomes available for appropriation the following year. An encumbrance accounting system is used to facilitate effective budgetary control. An encumbrance reserves a portion of an appropriation at the time a commitment is made to acquire goods or services. Open encumbrances are reported as reservations of fund balances at June 30, 2001, and are re-appropriated as part of the following year's budget.

General Governmental Functions

The general governmental functions are contained in the General, Special Revenue, Debt Service and Capital Projects Funds. Included in these Funds are the special districts governed by the Board of Supervisors and the County's blended component units.

Revenues for County governmental functions (primary government) totaled \$1,090 million in fiscal year 2000-2001, an increase of 10.3 percent from fiscal year 1999-2000. The amount of revenues from various sources and the changes compared to the prior year are shown in the following tabulation (in thousands):

Revenue Source		Amount	Percent of Total	Increase (Decrease) From 1999-2000		Percent Change	
Taxes	\$	296,644	27.2 %	\$	25,497	9.4 %	
Licenses, permits, and franchise fees		25,749	2.3		5,354	26.3	
Fines, forfeitures, and penalties		18,296	1.7		(704)	(3.7)	
Use of money and property		43,632	4.0		9,133	26.5	
Intergovernmental		490,842	45.0		50,429	11.5	
Charges for services		188,545	17.3		19,305	11.4	
Other revenue		27,166	2.5		(7,184)	(20.9)	
Total	\$	1,090,874	100.0 %	\$	101,830	10.3	

Tax revenue increased 9.4 percent compared to the prior year due to an increase in assessed valuations and sales tax revenues.

Licenses, permits and franchise fees increased 26.3 percent compared to the prior year. Due to the sale of facilities by Pacific Gas and Electric Company (PG&E) during the fiscal year 1999-2000, only a partial year's worth of gas surcharge payments were received that year. Consequently, there was a large increase in the gas surcharge payments received from PG&E during the full twelve months of fiscal year 2000-2001. Also, PG&E erroneously made payments to the City of Pittsburg during 1999 and 2000. The City of Pittsburg made a correcting payment to the County during fiscal year 2000-2001.

Fines, forfeitures and penalties decreased by 3.7 percent compared to the prior year. This was due primarily to decreases in vehicle code fines and consumer fraud damages.

Use of money and property increased by 26.5 percent compared to the prior year. This was due to an increase of the cash balance available for investment, and a higher rate of interest paid on those investments.

Intergovernmental revenue increased by 11.5 percent compared to the prior year. This is due to overall increases in grants received by the State and Federal governments. The State portion includes increased grants in the areas of Medi-Cal health care, the mental health Short-Doyle Program, family income maintenance, other social services, public safety services, traffic congestion management and miscellaneous State aid. The Federal portion includes increased grants in the areas of child care, highway construction, and family support.

Charges for services increased 11.4 percent compared to the prior year. This was primarily due to reimbursements for bond-funded projects, which included various acquisitions, building and improvement projects including 1034 Oak Grove Road and 4549 Delta Fair Blvd. Also, there was an increase in Recorder filings.

Other revenue decreased by 20.9 percent compared to the prior fiscal year. This decrease was mainly due to a reduction in the State of California's SB855 Disproportionate Share Hospital (DSH) program reimbursement from the County Hospital to the General Fund. This reimbursement is based on the number of inpatient days of both Medi-Cal and uncompensated care. Also, fiscal year 1999-2000 included proceeds from the sale of Animal Services property.

Expenditures for County governmental purposes (primary government) totaled \$1,036 million in fiscal year 2000-2001, an increase of 7.2 percent compared to fiscal year 1999-2000. Changes in levels of expenditures for major functions of the County compared to the prior year are shown in the following tabulation (in thousands):

			Percent		I	ncrease		
			of		(I	Decrease)	Percent	
Function		Amount	Total		From 1999-2000		Change	
General government	\$	106,380	10.3	%	\$	4,608	4.5 %	
Public protection		325,821	31.4			18,561	6.0	
Health and sanitation		161,220	15.6			(2,922)	(1.8)	
Public assistance		294,317	28.4			39,060	15.3	
Education		14,589	1.4			373	2.6	
Public ways and facilities		54,611	5.3			4,103	8.1	
Recreation and culture		426				(193)	(31.2)	
Debt service		63,828	6.2			3,193	5.3	
Capital outlay		14,830	1.4			2,680	22.1	
Total	\$	1,036,022	100.0	<u>%</u>	\$	69,463	7.2	

General government expenditures increased 4.5 percent compared to the prior fiscal year due to increases in utility costs, labor costs, rents, administrative services, traffic signal maintenance and debt service expenses. Also, the Assessor had an increase in data processing services and an increase in office furniture and equipment purchases.

Public protection expenditures increased 6.0 percent compared to the prior fiscal year. Salaries and benefits increased due to pay increases. In addition, the Contra Costa fire districts were able to expend for services and supplies that were deferred in prior fiscal years. Also, during fiscal year 2000-2001, there was a payment for a right of way grant deed for the drainage area between Oakley and Brentwood.

Health and sanitation expenditures decreased by 1.8 percent due to a decrease in the amount paid to the State of California for the Disproportionate Share Hospital Program.

Public assistance expenditures increased by 15.3 percent compared to the prior year. There was an allocation of Oakley's portion of the Redevelopment Agency being allocated to the City of Oakley in the current year. Also, there was an increase in children and family services, aging and adult services, and workforce services expenditures due to an increase in intergovernmental revenue.

Education expenditures increased by 2.6 percent compared to the prior fiscal year. Library salaries and benefits increased due to a cost of living increase for salaries and negotiated benefits, a slight increase in health benefits and an increase in positions at one branch library.

Public ways and facilities expenditures increased by 8.1 percent compared to the prior fiscal year due to the County obtaining a right-of-way for State Route 4, from Railroad to Loveridge.

Recreation and culture expenditures decreased by 31.2 percent compared to the prior fiscal year. This was due to the completion of the Alamo pool project in fiscal year 1999-2000.

Debt service expenditures increased by 5.3 percent compared to the prior fiscal year. This can be attributed to increases in principal paid on the pension obligation bonds as well as the costs of the PFA bond issuance and financing.

Capital outlay expenditures increased by 22.1 percent compared to the prior fiscal year. This was primarily due to various acquisitions, building and improvement projects including 1034 Oak Grove Road and 4549 Delta Fair Blvd.

Enterprise Operations

As of June 30, 2001, the County Hospital Enterprise Fund had retained earnings of \$22,872,000 and the Health Maintenance Organization Enterprise Fund had retained earnings of \$4,286,000. These amounts were after General Fund contributions of \$25,386,000 and \$4,577,000, respectively. The Major Risk Medical Insurance Enterprise Fund had retained earnings of \$93,000. The Airport Enterprise Fund had retained earnings of \$1,793,000. This is a recovery from its historically negative position brought about by higher operating revenues, a successful austerity program to lower costs and the recording of the transfer of ownership of hangars valued at \$1,500,000 to the Fund at the end of a lease. In conformance with Federal Housing and Urban Development (HUD) guidelines, the Housing Authority began reporting its financial activity in an Enterprise Fund effective April 1, 2000. The Housing Authority Enterprise Fund had retained earnings of \$26,365,000 as of March 31, 2001.

Pension Trust Fund Operations

The beginning balance of the Employees' Retirement Association's net assets held in trust at January 1, 2000, was restated and reduced by \$21,035,000 as a result of the Paulson lawsuit settlement to \$2,966,054,000. The balance at December 31, 2000, was \$2,931,262,000 a decrease of \$34,792,000. There was a net depreciation in the fair value of pension investments of \$51,506,000 during the year 2000.

Debt Administration

The County finances its cash requirements prior to collection of taxes by short-term borrowing. The fiscal year 2000-2001 Tax and Revenue Anticipation Notes of \$55 million received ratings of MIG1 from Moody's Investors Service and SP1+ from Standard and Poor's Corporation. These are the highest ratings for this type of borrowing.

The County has capital lease obligations under lease purchase agreements for various County buildings and other property. Past agreements have been made principally with the Contra Costa County Public Facilities Corporation, a non-profit public benefit corporation which assists the County in financing public buildings and facilities. Beginning in fiscal year 1997-1998, most new agreements have been and will be made with the County of Contra Costa Public Financing Authority, a joint powers authority consisting of the County and the Redevelopment Agency.

Cash Management

Cash temporarily idle during the year was invested in accordance with California Government Code Sections 53600 (et seq.) which allow investment maximums of 40.0 percent in bankers' acceptances, 30.0 percent in negotiable certificates of deposit, and up to 30.0 percent in commercial paper. There is no limit on investments in collateralized certificates of deposit and U.S. Government issues. The County Treasurer continues to have a more restrictive investment policy than required by law. The Treasurer's investment policy was approved by the Board of Supervisors. In accordance with Sections 27130-27137 of the Government Code, an investment oversight committee has reviewed the quarterly investment reports prepared by the Treasurer. The average yield on investments for the fiscal year ended June 30, 2001, was 4.5 percent.

Risk Management

The County is self-insured for workers' compensation, general and automobile liability, medical malpractice, dental, management long-term disability and unemployment insurance. The County maintains excess insurance policies to cover workers' compensation claims from \$750,000 to \$10 million, and general and automobile liability claims from \$1 million to \$30 million (\$100 million per occurrence for airport catastrophic public liability losses). The County also maintains excess insurance policies to cover medical malpractice claims from \$500,000 to \$11.5 million. In addition, the County maintains up to \$550 million "All Risk" coverage (including flood insurance) with a \$50,000 deductible and \$280 million earthquake insurance coverage with commercial insurance carriers on all locations.

The County's Risk Management office administers claims for the various programs, provides loss prevention services and minimizes risks through various risk control strategies.

OTHER INFORMATION

Independent Audit

For over 60 years the policy of the County has been to require an annual audit of the financial statements of the County by independent certified public accountants. The Board of Supervisors selected the firm of Macias, Gini & Company LLP to perform the fiscal year 2000-2001 audit.

Awards

The Government Finance Officers Association of the United States or America and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Contra Costa County for its fiscal year 1999-2000 Comprehensive Annual Financial Report. This was the nineteenth consecutive fiscal year the County has received this award.

In order to be awarded a Certificate of Achievement, the County must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such a report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid only for a period of one year. We believe our current report continues to conform to Certificate of Achievement requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Web Site

The County maintains an Internet web site with an increasing amount of information useful to its citizens at http://www.co.contra-costa.ca.us. This document is also available there.

Acknowledgments

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Office of the Auditor-Controller. I would like to express my appreciation to all members of the Office who assisted and contributed to its preparation. I would also like to thank the members of the Board of Supervisors and the County Administrator for their interest and support in planning and conducting the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

The Honorable Board of Supervisors County of Contra Costa Martinez, California

INDEPENDENT AUDITOR'S REPORT

James V. Godsev

We have audited the accompanying general-purpose financial statements of the County of Contra Costa, California (the County), as of and for the year ended June 30, 2001, as listed in the table of contents. These general-purpose financial statements are the responsibility of the County's management. Our responsibility is to express an opinion on these general-purpose financial statements based on our audit. We did not audit the financial statements of the County of Contra Costa Housing Authority (the Authority), a blended component unit of the County, and the Contra Costa Children and Families Commission (the Commission), a discretely presented component unit of the County. The statements of the Authority and the Commission reflect total assets of \$30,891,000 and \$28,247,000 and total revenues of \$56,149,000 and \$12,892,000, respectively, for the year then ended. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion insofar as it relates to the amounts included for the Authority and the Commission, is based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the general-purpose financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the general-purpose financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall general-purpose financial statement presentation. We believe that our audit and the reports of the other auditors provide a reasonable basis for our opinion.

In our opinion, based on our audit and the reports of the other auditors, the general-purpose financial statements referred to above present fairly, in all material respects, the financial position of the County as of June 30, 2001, and the results of its operations and cash flows of its proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As discussed in Note 1.O. to the general-purpose financial statements, effective July 1, 2000, the County changed its method of accounting for nonexchange transactions to comply with the provisions of Governmental Accounting Standards Board (GASB) Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions, and GASB Statement No. 36, Recipient Reporting for Certain Shared Nonexchange Revenues - an amendment of GASB Statement No. 33.

During the year, the County changed its method of accounting and financial reporting for the Authority. These changes are disclosed at Note 1.Q. and Note 10.

In accordance with Government Auditing Standards, we have also issued our report dated December 5, 2001 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be read in conjunction with this report in considering the results of our audit.

OFFICE LOCATIONS

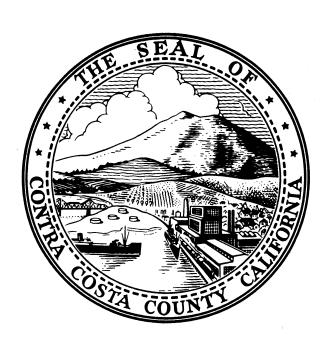

Sacramento • Los Angeles • Fresno • San Francisco Bay Area

Our audit was made for the purpose of forming an opinion on the general-purpose financial statements taken as a whole. The combining and individual fund and account group financial statements and schedules listed in the table of contents as supplemental information are presented for purposes of additional analysis and are not a required part of the general-purpose financial statements of the County. Such information has been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, in our opinion, is fairly presented in all material respects in relation to the general-purpose financial statements taken as a whole.

The statistical section listed in the table of contents is presented for purposes of additional analysis and is not a required part of the general-purpose financial statements of the County. Such additional information has not been subjected to the auditing procedures applied in the audit of the general-purpose financial statements and, accordingly, we express no opinion on it.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the County of Contra Costa (the "County") conform to accounting principles generally accepted in the United States of America as applicable to governmental entities. The following is a summary of the more significant policies:

A. Definition of Reporting Entity

The County is a political subdivision created by the State of California. As such, it can exercise the powers specified by the Constitution and statutes of the State. The County is governed by a five member elected Board of Supervisors. These financial statements present all the fund types and account groups of the County and its component units. Component units are legally separate entities that are controlled by the County Board of Supervisors, are in a relationship of financial benefit or burden with the County, or would cause the County's financial statements to be misleading if the data from the entity was not included. Blended component units are component units whose governing board is substantially the same as the County Board of Supervisors or that serve the County government exclusively, or almost exclusively. Component units that do not meet this standard are discretely presented in a separate column in the combined financial statements.

Blended Component Units

The Housing Authority of the County of Contra Costa (the "Authority") was established to provide housing for the County's low and moderate income residents. Its board members are the same as the County Board of Supervisors. The financial activities of the Authority are now being reported in the enterprise funds, unlike in previous years when they were being reported in Special Revenue, Debt Service and agency funds and the General Fixed Assets and General Long-Term Obligations Account Groups. The fiscal year of the Authority ends on March 31st and its financial activities are reported as of that date.

The Contra Costa County Redevelopment Agency (RDA) was established for the purpose of redeveloping certain areas of the County designated as project areas. Its board members are the same as the County Board of Supervisors. The financial activities of the RDA are reported in the Redevelopment Agency Special Revenue, Debt Service, Capital Projects and Expendable Trust Funds and the General Long-Term Obligations Account Group.

The Contra Costa County Public Facilities Corporation (PFC) was established to provide financing for the acquisition, construction, improvement and remodeling of public buildings and facilities for the County. The County appoints a voting majority of the governing board and is able to impose its will on the PFC. The activities of the PFC are reported in a Debt Service Fund, the County Hospital Enterprise Fund and the General Long-Term Obligations Account Group.

June 30, 2001

The County of Contra Costa Public Financing Authority (PFA) is a joint powers authority consisting of the County and the RDA. The PFA was established to provide for the financing of public improvements, obligations, working capital and liability or other insurance programs of the County and the PFA. The members of the County Board of Supervisors also serve as the Directors of the PFA. The activities of the PFA are reported in a Debt Service Fund, the County Hospital Enterprise Fund and the General Long-Term Obligations Account Group.

The Contra Costa County Employees' Retirement Association (CCCERA) was established to provide retirement benefits to employees of the County and other member agencies. The CCCERA provides services which almost exclusively benefit the County and it is reported as a Pension Trust Fund in the general-purpose financial statements. The fiscal year of the CCCERA ends on December 31st and its financial activities are reported as of that date.

The Contra Costa County Board of Supervisors, pursuant to Welfare and Institutions Code Section 12301.6, established the In-Home Supportive Services Public Authority. The Authority provides screening, training and referral of in-home supportive service providers and assists recipients in finding qualified persons to assist eligible individuals who are unable to care for themselves at home.

The County has 40 agencies referred to as County Special Districts and Service Areas. Each is established by the County for the purpose of providing specific services in a defined geographic area. Their board members are the same as the County Board of Supervisors. These agencies are reported in Special Revenue Funds. These agencies and the Special Revenue Fund in which each is reported include: Fire Protection - Bethel Island Fire Protection District, Contra Costa Fire Protection District, Crockett-Carquinez Fire Protection District, East Diablo Fire Protection District, Oakley Fire Protection District; Flood Control - Flood Control District, Storm Drainage District, Storm Drain Maintenance District No. 4 and Storm Drain District No. Z-16; Health and Sanitation - Sanitation Districts Nos. 5 and 6; Service Areas - Service Areas D-2, EMS-1, L-100, LIB-2, LIB-10, LIB-12, LIB-13, M-1, M-8, M-16, M-17, M-20, M-23, M-25, M-26, M-27, M-28, M-29, M30, R-4, R-7, R-9, R-10 and RD-4; Law Enforcement - Service Areas P-1, P-2, P-5 and P-6; Other Special Revenue - Contra Costa County Water Agency.

Discretely Presented Component Unit

The Contra Costa Children and Families Commission (the "Commission") was established to implement the provisions of Proposition 10, adopted by the voters in 1998. Proposition 10 added Division 108 (commencing with Section 130100) to the Health and Safety Code. It provides for a State tax on the sale of tobacco products and also provides that this revenue be spent for early childhood development programs by the Commission. The County Board of Supervisors appoints all nine members (and nine alternate members) of the Commission and is able to impose its will on the Commission. Two members of the Board of Supervisors serve on the Commission. The Commission provides most of its services directly to the citizens of the County. The financial activity of the Commission is reported in separate columns on the Combined Balance Sheet - All Fund Types and Account Groups and the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types.

June 30, 2001

Complete audited financial statements for each of the individual component units are issued separately and may be obtained at the unit's administrative offices as follows:

Housing Authority of the County of Contra Costa 3133 Estudillo Street, Martinez, CA 94553

Contra Costa County Public Facilities Corporation 1220 Morello Ave., Suite 100, Martinez, CA 94553

County of Contra Costa Public Financing Authority 651 Pine Street, 6th Floor, Martinez, CA 94553

Contra Costa County Redevelopment Agency 651 Pine Street, 5th Floor North Wing, Martinez, CA 94553

County Service Areas, County Auditor-Controller 625 Court Street, Room 103, Martinez, CA 94553

Contra Costa County Employees' Retirement Association 1355 Willow Way, Suite 221, Concord, CA 94520

In-Home Supportive Services Public Authority 40 Douglas Drive, Martinez, CA 94553

Contra Costa Children and Families Commission 1340 Arnold Drive, Suite 125, Martinez, CA 94553

B. Fund Accounting

The County uses funds and account groups to report its financial position and the results of its operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources.

Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

Governmental funds are used to account for all or most of the County's general government activities, including the collection and disbursement of earmarked monies (special revenue funds), the acquisition or construction of general fixed assets (capital projects funds), and the servicing of general long-term obligations (debt service funds). The General Fund is used to account for all activities of the County not accounted for in one of the other fund types.

Proprietary funds are used to account for activities similar to those in the private sector, where the measurement focus is upon determination of net income and capital maintenance. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the County (internal service funds).

June 30, 2001

Fiduciary funds are used to account for assets held by the County in a trustee capacity or as an agent for individuals, private organizations, other governments, and/or other funds. These include the Pension and Investment Trust Funds, the Expendable Trust Fund and agency funds. The Pension and Investment Trust Funds are accounted for in essentially the same manner as proprietary funds. The Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

C. Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds and the Expendable Trust Fund are accounted for using the flow of current financial resources measurement focus. Generally, only current assets and current liabilities are included on the balance sheet. Fixed assets purchased with governmental funds are recorded in the General Fixed Assets Account Group. Liabilities, which are expected to be liquidated with expendable available resources, are considered current liabilities and are recorded in the governmental funds; remaining amounts are reported in the General Long-Term Obligations Account Group. Operating statements of the governmental funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

All proprietary funds and the Pension and Investment Trust Funds are accounted for using the flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the balance sheet for proprietary funds, or statement of net assets for Pension and Investment Trust Funds. Fund equity (i.e., net total assets) in proprietary funds is segregated into contributed capital and retained earnings components. Proprietary fund type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets.

The modified accrual basis of accounting is used by all governmental funds, the Expendable Trust Fund, agency funds and the discretely presented component unit. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures, other than principal and interest on long-term obligations, are recorded when the related fund liability is incurred. Principal and interest on general long-term obligations are recorded as fund liabilities when due or when amounts have been accumulated in the debt service funds for payments to be made early in the following year.

The County considers property taxes administered under the alternate method of distribution as available (see Note 3). Unsecured property taxes, not administered under that method, are considered available if they are collected within 60 days after year-end.

Other major revenues susceptible to accrual are tobacco taxes, franchise fees, intergovernmental revenue, interest revenue and charges for services. Vehicle license fees and sales tax revenue reported to the State on behalf of the County for the period ending June 30th, are also recognized as revenues. Fines, fees and permits are not susceptible to accrual as they generally are not measurable until received in cash.

The accrual basis of accounting is utilized by proprietary funds and Pension and Investment Trust Funds. Under this method, revenues are recorded when earned and expenses are recorded when liabilities are incurred.

June 30, 2001

The County reports deferred revenue on its combined balance sheet. Deferred revenue arises when a potential revenue transaction does not meet the "available" criteria for recognition in the current period. Deferred revenue also arises when resources are received by the County before it has a legal claim to them, as when grant monies are received in advance of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the County has a legal claim to the resources, the liability for the deferred revenue is removed from the combined balance sheet and revenue is recognized.

D. Governmental Accounting Standards Board (GASB) Statement No. 20

The County has elected under Governmental Accounting Standards Board (GASB) Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting, not to apply Financial Accounting Standards Board (FASB) statements and interpretations issued after November 30, 1989. As required under GASB Statement No. 20, the County will continue to apply all applicable GASB pronouncements, as well as statements and interpretations of FASB, the Accounting Principles Board (APB) Opinions and Accounting Research Bulletins (ARB's) of the Committee on Accounting Procedure issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

E. Cash and Investments

Investment transactions are recorded on the trade date. Investments in non-participating interest-earning investment contracts (certificates of deposit and guaranteed investment contracts) are stated at cost, and all other investments are stated at fair value. Fair value is defined as the amount that the County could reasonably expect to receive for an investment in a current sale between a willing buyer and seller and is generally measured by quoted market prices.

Under GASB Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, the Pension Trust Fund reports its investments at year-end at fair value and includes both realized and unrealized gains and losses on investments in its statement of changes in net assets. The fair values of equity and fixed income securities are derived from quoted market prices. The fair values of private market investments are estimated from fair values provided by real estate investments funds, generally using periodic independent appraisals, and alternative investment managers. All investment purchases and sales are recorded on the trade date.

The public school districts, cemetery districts, pest control districts, recreation and park districts and resource conservation districts within the County are required by legal provisions to maintain their cash and investments with the County Treasurer. The County Treasurer maintains individually directed investment accounts for these districts. The cash and investments held for these districts are included in the Investment Trust Fund.

F. Budgets and Budgetary Accounting

In accordance with the provisions of Sections 29000-29144 of the Government Code and other statutory provisions, commonly known as the County Budget Act, the County prepares and legally adopts a budget each fiscal year after a series of public hearings. Budgets are adopted for the General, Special Revenue and certain required Debt Service and Capital Projects Funds on the modified accrual basis.

June 30, 2001

The results of operations as presented in the budget-to-actual comparison statements are in conformity with accounting principles generally accepted in the United States of America. A reconciliation between those funds which are budgeted and those which are not follows (in thousands):

	_De	ebt Service	Capital Projects
Excess (Deficiency) of revenues and other			
financing sources over expenditures and			
other financing uses (Budgeted Funds)	\$	6,113	(6,114)
Adjustment:			
Budgets not adopted for the:			
Public Financing Authority		9,666	
Public Facilities Corporation		(843)	
Assessment Districts		(375)	6,183
Excess (Deficiency) of revenues and other			
financing sources over expenditures and			
other financing uses (All Budgeted and			
Non-Budgeted Funds)	\$	14,561	69

Expenditures are controlled by management at the object level within departments for all adopted budgets; however, the legal level of control is at the department level. Any amendments of appropriations for a department, or transfers of appropriations between departments, are approved by the Board of Supervisors, as are supplemental appropriations normally financed by unanticipated revenues received during the year. Approximately \$83,519,000 in supplemental appropriations was added to the budgets for all governmental fund types during the fiscal year, of which \$69,171,000 was for the General Fund. The Board has delegated authority to the County Administrator to approve transfers of appropriations between object level classifications within a department. Budgeted amounts are reported as amended. Individual amendments were not material in relation to the original appropriations. All appropriations lapse at year-end.

G. Cash Flows

For the purposes of the statement of cash flows, the County considers all highly liquid investments with an initial maturity of three months or less to be cash equivalents.

H. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration in the General, Special Revenue and Capital Projects Funds. Encumbrances outstanding at year-end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

I. Inventories

Inventories are valued at cost, which approximates market. Governmental fund inventories are maintained using the weighted average method. Proprietary fund inventories are maintained using the first-in, first-out method. The costs of governmental fund inventories and proprietary fund inventories are recorded as expenditures/expenses at the time individual items are consumed rather than when purchased.

June 30, 2001

J. Fixed Assets

Fixed assets are valued at historical cost. Contributed fixed assets are recorded at fair market value at the time received. Certain assets, for which actual costs are not available, are valued on the basis of a professional valuation which determined their approximate historical cost.

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group rather than in the governmental funds. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings such as roads, bridges, streets and sidewalks, curbs and gutters, drainage systems, and lighting systems are not capitalized as these assets are immovable and of value only to the County. No depreciation has been provided on general fixed assets.

All proprietary fund and Pension Trust Fund fixed assets are depreciated using the straight-line method over the following estimated useful lives: buildings, 25-40 years; improvements, 10-20 years; and equipment, 3-20 years. Depreciation recognized on assets acquired or constructed (prior to the implementation of GASB Statement Nos. 33 and 36) through resources externally restricted for capital acquisitions is closed to the appropriate contributed capital account and reported on the operating statement as an adjustment to retained earnings.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not included in the General Fixed Assets Account Group or capitalized in the proprietary funds. The capitalization threshold for permanent structures is \$5,000. The capitalization threshold for equipment is \$3,000, except for County Hospital equipment for which the threshold is \$500.

Interest is capitalized on construction in progress in the proprietary funds in accordance with Statement of Financial Accounting Standards No. 62, *Capitalization of Interest Cost in Situations Involving Certain Tax Exempt Borrowings and Certain Gifts and Grants*. Accordingly, interest capitalized is the total interest cost from the date of the borrowing net of any allowable interest carried on temporary investments of the proceeds of those borrowings until the specified asset is ready for its intended use.

K. Vacation and Sick Leave

Under terms of union contracts, County employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is reimbursed for accumulated vacation hours. Employees are not reimbursed for accumulated sick leave except management employees who are eligible for a payoff of unused sick leave accruals at resignation. Management employees must have a balance of at least 70.0 percent of their sick leave accruals and have been employed three years or more to be eligible for this benefit. The maximum amount payable under this Sick Leave Incentive Plan is 50.0 percent of accrued sick leave, however, the amount of sick leave payable is de minimis. Accordingly, no accrual for sick leave has been made in the accompanying financial statements. Accrued vacation at June 30, 2001, is valued at \$37,832,000, which includes \$31,160,000 attributable to the General and Special Revenue Funds, \$6,522,000 recorded in Enterprise Funds and \$150,000 recorded in the Pension Trust Fund. Amounts attributable to the General and Special Revenue Funds are expected to be claimed in future periods and paid with future resources. Accordingly, this liability is reflected in the General Long-Term Obligations Account Group. In proprietary funds, accumulated vacation is recorded as an expense and liability as the benefits accrue to employees. In compliance with GASB Statement No. 16, Accounting for Compensated Absences, the amounts reported include estimated employer liability for taxes and workers' compensation premiums.

June 30, 2001

L. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

M. Bond and Certificate of Participation Discounts and Issuance Costs

In governmental fund types, bond and certificate of participation discounts, issuance costs and losses on defeasance are recognized in the period incurred. In proprietary fund types, these charges are deferred and amortized over the term of the issuance using the straight-line method, which approximates the effective interest method.

N. Total Columns on Combined Statements

Total columns on the accompanying combined statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or cash flows in conformity with accounting principles generally accepted in the United States of America. Such data are not comparable to a consolidation since interfund eliminations have not been made.

O. Pronouncements Implemented During the Year

GASB Statement Nos. 33 & 36

The County implemented GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions, and GASB Statement No. 36, Recipient Reporting for Certain Shared Nonexchange Revenue - an amendment of GASB 33, during the current year. There was no significant impact as a result of the implementations, and accordingly, a restatement of beginning fund balance was not necessary. Capital contributions from a former lessee is being recorded as revenue by the Airport Enterprise Fund and is included in retained earnings.

P. Pronouncements to be Implemented in Future Years

GASB Statement Nos. 34, 37 & 38

In June 1999 and in June 2001, the GASB approved Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments and Statement No. 37, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus. These statements establish new financial reporting requirements for state and local governments throughout the United States. When implemented, these statements will require new information and will restructure much of the information that governments have presented in the past. One of the most significant changes is that all capital assets, including infrastructure, will be reported within the basic financial statements, along with depreciation expense and accumulated depreciation. Currently, infrastructure related to governmental funds is not reported in the financial statements. GASB Statement No. 34 provides an alternative to depreciation for infrastructure, termed the "modified approach". The modified approach requires the use of a qualified asset management system and additional schedules to be reported in required supplementary information. The costs to implement GASB Statement No. 34 are unknown at this time. The County is in the

June 30, 2001

planning stages and anticipates various complex analyses to be required before the full impact of these statements can be determined.

In June 2001, the GASB approved Statement No. 38, *Certain Financial Statement Note Disclosures*. This statement modifies, adds and deletes various note disclosure requirements. The statement addresses disclosure for revenue recognition policies, actions taken in response to legal violations, debt service requirements, variable-rate debt, receivable and payable balances, interfund transfers and balances, and short-term debt. GASB Statement Nos. 34, 37 and 38 are required to be implemented concurrently for the fiscal year ending June 30, 2002.

The Office of the County Auditor-Controller has established a committee to help the County prepare for the implementation of GASB Statement No. 34 and subsequent standards. The committee includes members from other departments and plans to conduct training of County staff as appropriate.

O. Fund Reclassification

In the prior year, the activities of the Housing Authority had been reported in a Special Revenue Fund, a Debt Service Fund and the account groups. Beginning in fiscal year 2000-2001, the County reported the activities of the Housing Authority as an Enterprise Fund in accordance with guidelines prescribed by the U.S. Department of Housing and Urban Development.

2. CASH AND INVESTMENTS

The cash balances of substantially all funds except the Pension and Investment Trust Funds are maintained in the County's internal pool and invested by the County Treasurer. Income from pooled investments is allocated to the funds based on average daily balances. As permitted by the Government Code, legally separate entities that are not part of this reporting entity also have individual investment accounts in the County Treasury. These accounts are separate from the pool and are reported in the Investment Trust Fund. Specific investments are acquired for these individual entities at their direction and the income from and changes in the value of those investments affect only the entity for which they were acquired. The Retirement Board directs the investment activity of the Pension Trust Fund.

Cash and investments at June 30, 2001 (December 31, 2000 for the Pension Trust Fund and March 31, 2001 for the Housing Authority) are as follows (in thousands):

	_	County (Including Investment Trust Fund)	Pension Trust Fund	Children & Families Commission	Total
Deposits	\$	81,879	8,294	2,891	93,064
Investments	_	1,484,516	2,997,973	25,337	4,507,826
Total	\$_	1,566,395	3,006,267	28,228	4,600,890

June 30, 2001

A. Deposits

Deposits include bank deposits at a carrying amount of \$88,747,000. The balance reported by various financial institutions was \$45,719,000. The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit. Of the bank balance, \$644,000 was covered by Federal depository insurance and \$45,075,000 was collateralized by the pledging financial institutions as required by Section 53652 of the California Government Code.

According to Government Code Section 53601, bank obligations such as Certificates of Deposit are considered investments. However, in accordance with accounting principles generally accepted in the United States of America, the County has classified Certificates of Deposit in the amount of \$4,317,000 as deposits. Of the Certificates of Deposit balance, \$1,704,000 was insured and \$2,613,000 was collateralized by the pledging financial institutions as required by Section 53652 of the California Government Code.

Under the California Government Code, a financial institution is required to secure deposits in excess of \$100,000 made by state or local governmental units by pledging securities held in the form of an undivided collateral pool. The market value of the pledged securities in the collateral pool must equal at least 110.0 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public agency deposits by pledging first trust deed mortgage notes having a value of 150.0 percent of the secured public deposits. The collateral must be held at the pledging bank's trust department or other bank, acting as the pledging bank's agent, in the public agency's name.

B. Investments

Statutes authorize the County to invest in obligations of the United States Treasury, Federal agencies, municipalities, commercial paper rated A-1 by Standard & Poor's Corporation or P-1 by Moody's Commercial Paper Record, bankers' acceptances, repurchase agreements, reverse repurchase agreements, medium-term notes, negotiable certificates of deposit, mutual funds and investments in accordance with the statutory provisions governing the issuance of bonds.

Pension Trust Fund investments are authorized by the County Employees' Retirement Law of 1937. Statutes authorize a "prudent investor" guideline as to the form and types of investments which may be purchased.

The County's investments (including the Investment Trust Fund) and those of the Pension Trust Fund are categorized separately on the following page to indicate the level of custodial credit risk assumed by each investment portfolio for their respective year-ends. Category 1 includes investments that are insured or registered, or securities held by the County or its agent in the County's name. Category 2 includes uninsured and unregistered investments with the securities held by the counter-party's trust department or agent in the County's name or in the agent's nominee name with subsidiary records listing the County as the legal owner. Category 3 includes uninsured and unregistered investments, with the securities held by the counter-party or by its trust department or agent but not in the County's name. Investments not evidenced by securities that exist in physical or book form cannot be categorized.

The Local Investment Advisory Board (Board) has oversight responsibility for the State Treasurer's Local Agency Investment Fund (LAIF). The Board consists of five members as designated by State Statute. The value of the pool shares in LAIF which may be withdrawn is determined on an amortized cost basis, which is different from the fair value of the County's position in the pool.

June 30, 2001

Investments at fair value as of June 30, 2001 (December 31, 2000 for the Pension Trust Fund and March 31, 2001 for the Housing Authority) are shown as follows (in thousands):

	_		Category		Carrying Amount
		1	2	3	at Fair Value
County (Including Investment Trust	_	1			<u>value</u>
Fund)					
Negotiable certificates of deposit	\$	126,000	2,000		128,000

C. Other Financial Instruments

In accordance with California statutes, the County may invest in a wide variety of investment instruments, including asset-backed securities, such as collateralized mortgage obligations and principal-only strips, forward contracts and reverse repurchase agreements.

The Treasurer holds principal-only strip instruments for the benefit of some County school districts. Those school districts utilize the services of an independent financial advisor in determining their investment strategy.

The CCCERA has investments with trustees who hold part of their portfolio in government and corporate obligations consisting of asset-backed securities, floating rate notes, constant maturity index Adjustable Rate Mortgages (ARMs), Collateralized Mortgage Obligations and LIBOR indexed ARMs.

June 30, 2001

As of June 30, 2001 the County's proportionate share of structured notes and asset-backed securities held by LAIF was \$14,096,000 or 4.506 percent of the County's investment in LAIF.

Information is not available on whether the various mutual funds in which the County and CCCERA have invested, used, held or wrote derivative financial products during the year.

The investments discussed above, which are included in the accompanying financial statements, represent 10.0 percent of total investments. The Treasurer's investment policy was approved by the Board of Supervisors. In accordance with Sections 27130-27137 of the Government Code, an investment oversight committee reviews the quarterly investment reports prepared by the Treasurer.

D. Securities Lending by the Employees' Retirement Association (Pension Trust Fund)

The CCCERA's investment policy permits the use of a securities lending program with its principal custodian bank. The CCCERA lends U.S. Government obligations and domestic and international bonds and equities to various brokers for collateral that will be returned for the same securities plus a fee in the future. The custodian bank provides loss indemnification to the CCCERA if the borrower fails to return the securities. The custodian bank manages the securities lending program and receives cash and securities as collateral. The collateral cash cannot be invested and the collateral securities cannot be pledged or sold by the CCCERA without borrower default. Securities on loan must be collateralized at 102.0 percent and 105.0 percent of the fair value of domestic securities and non-domestic securities, respectively. There are no restrictions on the amount of securities which can be loaned at one time. The term to maturity of the securities loans is generally matched with the term to maturity of the investment of the securities collateral. Such matching existed at December 31, 2000. There were no losses associated with securities lending transactions during the year. At December 31, 2000, CCCERA has no credit risk exposure to borrowers. The fair value of investments on loan at December 31, 2000 is \$181,701,000, which was collateralized by cash and securities in the amount of \$185,399,000.

3. PROPERTY TAX

The County is responsible for assessing, collecting and apportioning property taxes. Taxes are levied for each fiscal year on taxable real and personal property situated in the County. The levy is based on the assessed values as of the preceding January 1st, which is also the lien date. State code requires tax rates to be set no later than the first workday in September unless the Board of Supervisors elects to extend the deadline to October 3rd. Property taxes on the secured roll are due in two installments: November 1st and February 1st and become delinquent after December 10th and April 10th, respectively. Supplemental property taxes are levied based on changes in assessed values between the date of real property sales or construction completion and the preceding assessment date. The additional supplemental property taxes are prorated from the first day of the month following the date of such occurrence. Property taxes on the unsecured roll are due on the lien date (January 1), and become delinquent if unpaid by August 31st.

Secured property taxes are recorded as revenue when apportioned, in the fiscal year of the levy. The County apportions secured property tax revenue in accordance with the alternate method of distribution prescribed by Section 4705 of the State Revenue and Taxation Code. This alternate method provides for crediting each applicable fund with its total secured taxes upon completion of the secured tax roll, approximately October 1st of each year.

Under the alternate apportionment method, specified amounts of penalties and interest collected on delinquent secured taxes are held in the Tax Losses Reserve Agency Fund. This reserve is used to offset the impact of accumulated delinquency remaining at year-end. Property taxes which have been collected in advance of the levy year are reported in unapportioned taxes in the Unapportioned Taxes Agency Fund.

June 30, 2001

4. NOTES RECEIVABLE

At June 30, 2001, the County had notes receivable balances of \$25,631,000. Deferred revenues were recorded as an offset to the governmental balances because the amounts are not available. The notes receivable balances by fund type were as follows (in thousands):

		Amount
Governmental:		
General Fund	\$	21,978
Special Revenue Fund:		
Redevelopment Agency	_	1,827
		23,805
Enterprise Fund:		
Housing Authority	_	1,826
	\$	25,631

The notes receivable balances in the General Fund and Housing Authority Enterprise Fund consist of loans made with funds provided to the County under Federal Department of Housing and Urban Development programs. The notes receivable balance in the RDA Special Revenue Fund consists of loans made with tax increment. The loans are made to carry out activities for affordable housing and economic development. Generally, the loans are either deferred or collected on a residual receipts basis with all remaining principal and interest due on the earlier of the due date of the note or sale or transfer of property. Any repayment of principal or interest is treated as program income, the use of which is restricted by Federal Regulations.

5. FIXED ASSETS

The following is a summary of changes in general fixed assets for the year ended June 30, 2001 (Beginning balance for Housing Authority of \$84,361,000 was excluded from general fixed assets; see Note 10) (in thousands):

	Balance July 1, 2000	Additions	Deletions	Transfers	Balance June 30, 2001
T 1					
Land	\$ 39,132	737			39,869
Buildings & improvements	297,793	17,011	(6,407)		308,397
Construction in progress		3,910			3,910

Equipment - lease purchase	47		29		76
Construction in progress		4,451	20,169		24,620
Total	42,260	74,791	180,816	357	298,224
Less accumulated depreciation	(14,134)	(55,615)	(42,160)	(322)	(112,231)
Net fixed assets	\$28,126_	19,176	138,656	35	185,993

The Pension Trust Fund had net fixed assets of \$129,000 as of December 31, 2000. This consisted of leasehold improvements and office equipment.

June 30, 2001

6. SHORT-TERM NOTES

On June 30, 2001, the County had tax and revenue anticipation notes outstanding in the amount of \$55,000,000 with interest at 5.3 percent per annum. The notes were issued July 3, 2000, and will be redeemed October 1, 2001. Interest is payable on June 29, 2001 and at maturity. The redemption monies were from taxes and other revenues transferred to a fiscal agent during the fiscal year. Total interest incurred on these notes during fiscal year 2000-2001 was \$2,860,000.

7. LEASE COMMITMENTS

A. Operating Leases

Total rental expense for the year ended June 30, 2001 (March 31, 2001 for the Housing Authority) for all operating leases and month-to-month lease arrangements amounted to \$7,779,000 for the General Fund, \$1,663,000 for the Special Revenue Funds and \$2,345,000 for the enterprise funds.

At June 30, 2001 (March 31, 2001 for the Housing Authority) the future minimum rental payments required under non-cancelable operating leases for buildings and equipment, other than month-to-month lease arrangements, are as follows (in thousands):

		Special	
Fiscal Year	General	Revenue	Enterprise
Ending June 30,	Fund	Funds	Funds
2002	\$ 4,210	62	191
2003	3,448	35	136
2004	2,876	13	100
2005	1,957	4	100
2006	1,275	4	100
Thereafter	4,572	21_	1,100
Total	\$ 18,338	139	1,727

B. Capital Leases

The County has capital lease purchase agreements with the Contra Costa County Public Facilities Corporation, the County of Contra Costa Public Financing Authority and other third parties. The assets acquired under these lease agreements are included in the County's General Fixed Assets Account Group and in the enterprise funds. The obligations related to these lease purchase agreements are also included in the County's General Long-Term Obligations Account Group and in the enterprise funds, and are summarized in Note 8.

8. LONG-TERM OBLIGATIONS

The following is a summary of changes in long-term obligations for the year ended June 30, 2001 (March 31, 2001 for the Housing Authority) (in thousands):

NOTES:

- (1) Debt service payments are made from lease payments by the County General, Special Revenue and Hospital Enterprise Funds to the Public Facilities Corporation and the Public Financing Authority.
- (2) Debt service payments are made from restricted property taxes and other revenues recorded in the General and Debt Service Funds.
- (3) Debt service payments are made from tax increment revenue.
- (4) Debt service payments are made from drainage fees and sanitation fees.
- (5) Debt service payments are made from retirement contributions.
- (6) Debt service payments are made from special assessments levies on properties in each assessment district. The County administers the assessment and repayment of these bonds. Since early redemption is allowed, there may be differences between the earnings on money received from property owners wishing to pay off their debt early and the interest obligation that accumulates on their debt between the time they submit funds to the County and the next available redemption date, as stated in the bond's Official Statement. The County has historically funded this difference, and to that extent may be obligated in some manner for this debt.
- (7) Debt service payments are made from operating revenues.

There are a number of limitations and restrictions contained in the various bond indentures. County management believes that the County is in compliance with all significant limitations and restrictions.

Issuance of New Debt and Advance Refundings

1. Public Financing Authority

- A. In June 2001, the Contra Costa County Public Financing Authority issued \$6,575,000 in revenue bonds (Reassessment District of 2001) with interest rates ranging from 4.0 to 5.6 percent to enable the Authority to acquire an issue of limited obligation reassessment bonds of the Contra Costa County Reassessment District of 2001, the proceeds of which were used to refinance prior bonds issued by the Authority and Contra Costa County relating to four assessment districts. The net proceeds of \$6,309,000 (after payment of \$266,000 of underwriter's discount and costs of issuance) were used to advance refund the following special assessment debt: East Bates Avenue, Series No. 1993-1; Hidden Pond Road, Series No. 1993-2; Rancho Paraiso, Series No. 1993-4; and, Mrack Road Improvements Camino Tassajara Area, Series 1992-1. Of the net proceeds and \$1,595,000 residual cash balances related to the old debt, \$7,571,000 was used to purchase securities which are held in an irrevocable trust with an escrow agent to provide for all future debt service payments on the old debt. As a result, the old special assessment debt listed above is considered defeased and the liabilities have been removed from the General Long-Term Obligations Account Group. The County decreased its total debt service over the next sixteen years by \$1,559,000 with this advance refunding, and generated an economic gain of \$471,000.
- B. In January 2001, the Contra Costa County Public Financing Authority issued \$18,030,000 in lease revenue bonds (2001 Series A), with interest rates ranging from 3.2 to 4.2 percent. The proceeds will be used to finance various capital projects of Contra Costa County, purchase a reserve fund surety bond, and pay costs of issuance relating to the 2001 Series A bonds.

June 30, 2001

C. In May 2001, the Contra Costa County Public Financing Authority issued \$23,775,000 in lease revenue bonds (2001 Series B), with interest rates ranging from 4.3 to 5.2 percent. The proceeds will be used to finance the construction of an ambulatory care clinic and attendant parking on the campus of the Contra Costa Regional Medical Center, fund a portion of the costs of a new animal shelter and other capital projects, purchase a reserve fund surety bond, fund capitalized interest on the animal shelter project for one year and pay costs of issuance relating to the 2001 Series B bonds.

2. Pension Obligation Bond

In March 2001, Contra Costa County issued \$107,005,000 in taxable pension obligation bonds (Refunding Series 2001), with interest rates ranging from 5.2 to 6.3 percent. By purchasing and refunding a portion of the 1994 bonds, the County restructured the amortization schedule of the bonds (including the 2001 bonds) to a final maturity date in 2014 and has achieved a more level annual debt service pattern. The net bond proceeds of \$105,199,000 (after payment of original issue discount of \$191,000 and cost of issuance of \$1,615,000) were used to purchase and cancel \$87,140,000 of the 1994 bonds and \$10,255,000 was deposited to an escrow account to advance refund (to maturity) \$9,500,000 of the 1994 bonds. The \$9,500,000 that was advance refunded is considered to be defeased and the liability has been removed from the General Long-Term Obligations Account Group. The 1994 bonds which remain outstanding will mature in 2010 while the 2001 bonds will mature in 2014. The extended payment period creates an overall debt service increase over the next thirteen years of \$32,639,000, but generates an economic gain of \$2,494,000.

The County entered into forward delivery agreements with Bear Stearns Capital Markets, Inc., and Bank of America, N.A. (the Providers), which are structured to meet the County's debt service requirements for the 1994 and 2001 Pension Obligation Bonds. Under these agreements, the County is required to make annual deposits on July 1 for the principal and interest debt service payments due the following December 1 and June 1. By making these annual deposits in advance, the Providers are able to invest these funds up to the due date of the debt service payments. In exchange, the County received (1) a fee from the Providers in the amount of \$8,000,000, representing an advance of investment earnings, and (2) will receive future investment earnings at a guaranteed rate of 2.661 percent. The \$8,000,000 fee was recognized as revenue in the Pension Bond Debt Service Fund.

3. Special Tax Bonds

In June 2001, Contra Costa County issued \$7,220,000 in special tax bonds, with interest rates ranging from 4.1 to 6.1 percent, for and on behalf of the County of Contra Costa Community Facilities District No. 2001-1 (Norris Canyon). The bonds are payable from special tax revenues derived by the County from the levy of the special taxes in the District, and are secured by a pledge of all of the special tax revenues and moneys deposited in certain funds established under the fiscal agent agreement.

Defeased Obligations

In prior years, the County has defeased certain obligations by placing a portion of the proceeds of new debt issuances in irrevocable trusts to provide for all future debt service payments on the refunded obligations. Accordingly, the trust account assets and the liability of the defeased debt are not included on the financial statements of the County. On June 30, 2001, \$166,719,000 in outstanding obligations is considered to be defeased.

10. FUND EQUITY

A. Restatements of Fund Equity

In fiscal year 2000-2001, the financial activities of the Contra Costa County Housing Authority were reclassified from a special revenue fund and account groups to a single enterprise fund presentation. Accordingly, fund equity was restated as follows:

Amount reported as beginning fund balance in the	
Special Revenue Fund as of April 1, 2000	\$ 6,902,000
Record Housing Authority fixed assets, at cost	84,361,000
Change in capitalization policy	(11,620,000)
Accumulated depreciation through March 31, 2000	(52,863,000)
HUD adjustments	(88,000)
Accrued compensated absences as of March 31, 2000	(285,000)
Miscellaneous corrections	(5,000)
Comprehensive Improvement Assistance Program as of	
April 1, 2000	 (691,000)
Beginning retained earnings, as restated at April 1, 2000	\$ 25,711,000

Special Revenue Funds

Affordable Housing, within Other Special Revenue Funds, recognized an advance made from the Redevelopment Agency Special Revenue Fund in the prior year. This increased beginning fund balance by \$431,000.

Due to the fund conversion referred to above, the Housing Authority's prior year ending balance of \$6,902,000 was restated as the beginning retained earnings balance of the Housing Authority Enterprise Fund.

Debt Service Funds

The beginning fund balance of the Redevelopment Agency (RDA) was decreased by \$87,000 to record an advance to the RDA from the County. This advance had been made in a prior year and was previously reported in the General Long Term Obligations Account Group.

Internal Service Funds

The Worker's Compensation Insurance Fire Protection Fund's beginning retained earnings were decreased by \$1,062,000 due to an overstatement of revenue in the prior year.

Fiduciary Funds

The Pension Trust Fund's beginning net assets were reduced by \$21,035,000 as a result of the Paulson Lawsuit settlement (see Note 11).

June 30, 2001

B. Reserve for Prepaid Items and Deposits

Reserves are less than total prepaid items and deposits because the General Fund advanced \$323,000 to subgrantees who will use the funds for Federal programs during the first quarter of fiscal year 2001-2002. As funds are spent, the Federal government reimburses the County.

11. PAULSON LAWSUIT SETTLEMENT

During the year ended December 31, 1999, CCCERA settled its litigation, entitled *Vernon D. Paulson, et al. v. Board of Retirement of the Contra Costa Employees' Retirement Association, et al.* As of October 14, 1999, all legal documents to finalize the case settlement were signed by the court.

The consolidated lawsuit was brought on behalf of a class of retired members of CCCERA regarding the inclusions and the exclusions from "final" compensation that are used in calculating members' retirement benefits as a result of the Ventura Decision. The Ventura Decision held that a County Retirement System operating under provisions of the County Employees Retirement Law of 1937 must include certain types of cash incentive payments and additional pay elements received by an employee, within the employees' "compensation earnable" and "final" compensation when calculating the employee's retirement benefits. A settlement agreement has been entered into with all parties and a petitioners' class has been certified consisting of all retired members of CCCERA whose effective retirement date was on or before September 30, 1997 (i.e., the period prior to the October 1, 1997 effective date of the Ventura Decision).

The Board has designated \$90 million from unrestricted excess earnings to cover the anticipated liability of the settlement. Interest at the actuarially assumed rate (currently 8.25% per annum) is credited to the settlement amount until the final liability is determined. As claim forms are submitted, benefits recalculated and paid, the funds will be transferred to the Employer Advance Reserve to cover the liability. The costs will then be "funded" to the Retiree Reserves. It is anticipated that it could take up to two years for CCCERA to determine the final effect of this case.

The recalculation and distribution of past and future benefits will be conducted in batches. As of December 31, 2000, CCCERA has already recalculated and paid 6 batches (616 claimants), for a total of \$15.7 million. As of April 2001, CCCERA has recalculated batches 7 through 9 (572 claimants), for a total of \$8.2 million in past benefits. Of the \$23.9 million paid and accrued through April 2001, \$21.0 million is for the periods prior to the year ended December 31, 2000 and is recorded as a prior period adjustment on the Combined Statement of Changes In Net Assets – Pension and Investment Trust Funds. The liability for past benefits cannot be reasonably estimated due to the complexity involved in calculating the "Paulson Benefit." As calculations are completed, the liability for the past benefits will be recognized. As of December 31, 2000, the Paulson Lawsuit settlement designation is \$81.9 million.

12. DEFICIT RETAINED EARNINGS

Two Internal Service Funds had retained deficits at June 30, 2001. The Medical Liability Insurance Fund had a deficit of \$6,832,000. The County provided \$3,000,000 in fiscal year 2001-2002 to reduce the deficit and plans to further evaluate funding options. The Workers' Compensation Insurance County General Fund had a deficit of \$6,522,000. The County's Risk Manager has re-evaluated its incentive method of establishing amounts charged to departments for funding Workers' Compensation Insurance to ensure adequate funding.

June 30, 2001

13. CONTRIBUTED CAPITAL CHANGES

Changes in contributed capital of the Enterprise Funds for the year ended June 30, 2001 are as follows (in thousands):

			Health	
		County	Maintenance	
	Airport	<u>Hospital</u>	Organization	Total
Balance as of July 1, 2000	\$ 24,867	721	1,000	26,588

June 30, 2001

The County pays a subsidy (through operating transfers) to the County Hospital and Health Maintenance Organization Enterprise Funds to provide resources for operating costs which are in excess of operating revenues. Subsidies for the last three years are as follows (in thousands):

Year Ended June 30,	Total Subsidy
1999	\$ 13,765
2000	17,856
2001	29,963

15. CONDUIT DEBT

From time to time Multifamily/Single Family Housing Revenue Bonds have been issued in the County's name to provide mortgage loans secured by first trust deeds on newly constructed and existing housing and to provide funds to builders for construction/remodeling of housing projects.

The bonds do not constitute an indebtedness of the County. They are payable solely from payments made on and secured by a pledge of the acquired mortgage loans or housing units and certain funds and other monies held for the benefit of the bondholders pursuant to the bond indentures. The County is not obligated in any manner for repayment of the indebtedness. Accordingly, no liability has been recorded in the general-purpose financial statements.

As of June 30, 2001, the County had participated in the issuance of twenty-seven series of Multifamily or Single Family Housing Revenue Bonds. The aggregate principal amount payable for the three series issued after July 1, 2000 was \$41,000,000 as of June 30, 2001. The aggregate principal amount remaining payable for the twenty four series of bonds issued prior to July 1, 2000 could not be determined; however, the original issue amount for these bonds was \$274,800,000.

16. RISK MANAGEMENT

The County self-insures its unemployment, dental and management long-term disability. The County is self-insured to \$750,000 per occurrence for workers' compensation, and maintains \$10 million of excess insurance coverage per occurrence with commercial insurance carriers. The County is self-insured to \$1 million per occurrence on public and automobile liability, and maintains \$30 million excess insurance coverage with commercial insurance carriers. Liability claims arising from operations at the County's two airports are fully insured to \$100 million under a separate commercial insurance policy. The County is self-insured to \$500,000 per occurrence on medical malpractice and maintains \$11.5 million of excess insurance with commercial insurance carriers. All claims are adjusted in-house by the County, except for dental which is adjusted by outside parties.

June 30, 2001

The County maintains up to \$550 million "All Risk" insurance coverage subject to a \$50,000 deductible to cover its property, except for loss by earthquake and flood. Loss by flood is subject to a \$100,000 deductible. With respect to loss from the peril of earthquake the County's coverage has decreased from \$350,000,000 to \$280,000,000 of protection in the current year, due to the commercial insurance carrier reducing the value of assets they will insure for earthquake coverage, subject to a 5.0 percent deductible at each location.

The County maintains a separate insurance policy to cover the Sheriff-Coroner's helicopter for \$1.6 million and up to \$50 million for liability arising from the helicopter use.

During the past three years there have been no instances of the amount of claim settlements exceeding insurance coverage.

Internal Service Funds are used to account for the County's self-insurance activities. It is the County's policy to provide in each fiscal year, by charges to affected operating funds, amounts sufficient to cover the estimated expenditures for self-insured claims. Charges to operating funds are recorded as expenditures/expenses of such funds and revenues of the Internal Service Funds. Accrual and payment of claims are recorded in the Internal Service Funds

The County has accrued a liability of \$80.0 million at June 30, 2001 for all self-insured claims in the Internal Service Funds, which includes an amount for incurred but not reported claims. The self-insurance reserve is based on actuarially determined amounts for workers' compensation, public and automobile liability, and medical liability and based on management's estimates for all other reserves. In the opinion of the County, the amounts accrued are adequate to cover claims incurred but not reported in addition to known claims.

Changes in the Funds' claims liability amount in fiscal years 2000-2001 and 1999-2000 were (in thousands):

	Beginning of Fiscal Year Liability	Current Year Claims and Changes in Estimates	Claim Payments	Balance at Fiscal Year End
2000-2001	\$ 80,337	24,119	(24,435)	80,021
1999-2000	84,198	20,866	(24,727)	80,337

The actuarially determined claims liabilities, including incurred but not reported claims, are based on the estimated ultimate cost of settling the claims, using past experience adjusted for current trends, and any other factors that modify past experience. It also includes incremental claim adjustment expenses. In addition, estimated recoveries on settled and unsettled claims were evaluated in terms of their estimated realizable value and deducted from the liability for unpaid claims.

June 30, 2001

17. COMMITMENTS AND CONTINGENCIES

A. Grants

The County participates in a number of Federal and State grant programs which are subject to financial and compliance audits by the grantors or their representatives. Audits of certain grant programs through June 30, 2001 have not yet been conducted. Accordingly, the County's compliance with applicable grant requirements will be established at some future date. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time. The County believes that such disallowances, if any, would not have a material effect on the general-purpose financial statements.

B. Health Insurance

Health care benefits for active and retired employees are jointly financed by the beneficiaries and by the County. Most employees have a choice of participation in five medical plans: Kaiser Permanente, a private health maintenance organization (HMO); Health Net (HMO); Health Net (PPO); and the Contra Costa Health Plans (CCHP) A and B, operated by the County Health Services Department. Employees represented by either the Deputy Sheriffs' Association (DSA), District Attorney Investigators' Association (DAIA), or United Professional Fire Fighters' IAFF Local 1230 are eligible to participate in medical plans administered by the California Public Employees' Retirement System (CalPERS).

For non-CalPERS administered medical plans, the County subvents 80.0 percent of Kaiser, 80.0 percent of Health Net (HMO), 60.0 percent of Health Net (PPO) and 98.0 percent of CCHP A and 90.0 percent of CCHP B premiums for plan members. The County subvention for CalPERS administered plans is a flat rate depending on the employees' union representation and the number of dependents covered under the plans. All permanent employees have a choice of two dental plans: a County self-funded plan administered by Delta Dental, and a PMI Delta Care Plan. The County's self-funded plan is an indemnity program and the PMI Delta Care plan is a prepaid program.

The County's contribution to health and dental plans during fiscal year 2000-2001 for active employees was \$40,687,000. The County's liability for health care benefits is limited to its annual contribution.

C. Post-Employment Benefits Other Than Pensions

In addition to providing retirement benefits as described in Note 18, retired employees are allowed to continue participation in the medical and dental plans described above. As of June 30, 2001, there were 3,906 retired employees participating in the health plans, and the County contributed \$13,815,000 toward payment of the premiums. The cost of retiree health care is recognized when the County makes its contribution on a pay-asyou-go basis and is accounted for in the General Fund, Special Revenue Library and Fire District Funds, enterprise funds, or fiduciary funds as appropriate. This post-employment benefit was approved by Board of Supervisors resolution number 264 on August 22, 1961 with an effective date of October 1, 1961. To be eligible, the retiring employee must have been a member of a participating health plan for at least five consecutive years.

June 30, 2001

D. Special Assessment Debt

The County is considered to be "obligated in some manner," as defined by GASB No. 6, Accounting and Financial Reporting for Special Assessments, for its special assessment debt. The County is obligated to foreclose on properties for which owners have failed to pay assessments installments as they fall due and the County may honor deficiencies to the extent that lien foreclosure proceeds are insufficient. The County's obligation to advance monies to pay debt service in the event of delinquent assessment installments is limited to the amount of remaining original bond proceeds and installments received. Special assessment debt is included in the County's General Long-Term Obligations Account Group and special assessment transactions are included in the Assessment Districts Debt Service Fund. Debt service payments are made from special assessments of the related special assessment district.

E. Construction Commitments

The County had entered into contracts for the construction of certain projects. At June 30, 2001, there were outstanding commitments of \$13,880,000 for the Martinez Health Center project, \$26,794,000 for the Juvenile Hall Replacement project, \$3,893,000 for the 4549 Delta Fair Blvd. project, and \$3,813,000 for 2001 overlays project located within Central and West regions of Contra Costa County.

F. Pending Legal Matters

Numerous lawsuits are pending or threatened against the County. The County has recorded actuarially determined reserves in the Internal Service Funds to adequately cover estimated potential material adverse losses at June 30, 2001.

18. PENSION PLAN

A. Plan Description

The Contra Costa County Employees' Retirement Association (CCCERA) is a cost-sharing multiple-employer defined benefit pension plan (the plan) governed by the County Employees' Retirement Law of 1937 (the "1937 Act"). The plan covers substantially all of the employees of the County, its special districts, the Housing Authority and thirteen other member agencies. The plan issues a stand-alone financial statement which can be directly obtained from its office, as indicated in note 1A.

The plan provides for retirement, disability, death and survivor benefits, in accordance with the 1937 Act. Annual cost-of-living adjustments to retirement benefits can be granted by the Retirement Board as provided by State statutes.

The plan is divided into four separate benefit sections of the 1937 Act. These sections are known as: General - Tier I, General - Tier II, General - Tier III and Safety. Tier I includes members not mandated to be in Tier II and reciprocal members that elect Tier I membership. Tier II includes members hired on or after August 1, 1980, by the three employers adopting this benefit provision and their members who elected to transfer from Tier I at that date. Tier III was approved by the Board of Supervisors in January 1998 and implementation began in October 1998. Safety includes members in active law enforcement, active fire suppression work or certain other "Safety" classifications as designated by the Retirement Board.

June 30, 2001

Service retirement benefits are based on age, length of service and final average salary. For the Tiers I, III and Safety sections, the retirement benefit is based on a one-year average salary, in accordance with Section 31462 of the Government Code. For Tier II, the benefit is based on a three-year average salary.

As of June 30, 2001, 3,427 Tier II employees with five years service were eligible to irrevocably elect Tier III. Members eligible for Tier III are required to elect or decline enrollment. As of June 30, 2001, 2,753 employees elected Tier III. Subsequent enrollments will occur as more employees from Tier II acquire five years of service.

B. Funding Policy

Pursuant to provisions of the 1937 Act, the Retirement Board recommends the annual contribution rates for adoption by the Board of Supervisors. New contribution rates, based on the actuarial study as of January 1, 2000, became effective July 1, 2000. The contribution requirements are determined as a percentage of payroll.

The employer rates were calculated on the alternate funding method permitted by Section 31453.5 of the Government Code. The "entry age normal funding" method is used to calculate the rate required to provide all the benefits promised to a new member. Unfunded costs resulting from this calculation are amortized over 20 years from the January 1, 1999 valuation date.

Active plan members are required to contribute an actuarially determined percentage of their annual covered salary. The required percentage rates vary according to the benefit section and entry age of the employee. The rates in effect during fiscal year 2000-2001 (based on covered payroll as of January 1, 2000) ranged from 2.1 percent to 10.1 percent of the employees' annual covered salary.

The County employer rates of contribution, calculated as a percentage of the County's covered payroll of \$382,124,000 as of January 1, 2000, for fiscal year 2000-2001 were:

General Members, Tier I	17.35%
General Members, Tier II	11.85
General Members, Tier III	14.05
Safety Members	18.73

June 30, 2001

The following table shows the County's required contributions and the percentage contributed, for the 2000 calendar year and each of the two preceding years:

		Annual	
		County	
		Required	Percentage
	Calendar	Contribution	Contributed
	Year	(ARC)	by County
-	1998	\$ 30,022,276	100
	1999	32,565,990	100
	2000	35,041,270	100

19. MEDICARE AND MEDI-CAL PROGRAMS

The County Hospital provides services to eligible patients under Medi-Cal and Medicare programs. For the fiscal year ended June 30, 2001, the Medi-Cal program represented 44.0 percent and the Medicare program represented approximately 19.0 percent of the Hospital's gross patient service revenues. Medi-Cal inpatient services are reimbursed on a per diem basis, outpatient services under a cost-reimbursement methodology. Medicare inpatient services are reimbursed based upon pre-established rates for diagnostic-related groups. Outpatient services and defined capital and medical education costs related to Medicare beneficiaries are paid based on a cost-reimbursement methodology. Final reimbursement is determined as a result of audits by the intermediary of annual cost reports submitted by the Hospital. Reports on the results of such audits have been received through June 30, 1999 for Medicare and Medi-Cal. Adjustments as a result of such audits are recorded in the year the amount can be determined. Laws and regulations governing the Medicare and Medi-Cal programs are extremely complex and subject to interpretation. As a result, there is a possibility that these adjustments could be a material amount in the near term. The Hospital Enterprise Fund accounts receivable of \$26,650,000 is reported net of contractual and other allowances of \$57.514.000.

20. EXPENDITURES IN EXCESS OF BUDGET

The negative expenditure variances for other charges of \$7,383,000 for RDA Capital Project Funds and \$639,000 for RDA Debt Service Funds were the result of the transfer of the Oakley Project Area from the County RDA. The Redevelopment Agency (RDA) Special Revenue, Debt Service and Capital Projects Funds transferred all City of Oakley RDA equity to an expendable trust fund as of July 1, 2000 due to the City of Oakley RDA taking over the Oakley Project Area of the County.

The County refunded the 1994 Pension Obligation Bonds and budgeted the proceeds of refunding bonds net of the refunding bond issuance cost resulting in a negative expenditure variance of \$1,615,000 for Pension Bond Debt Service Fund.

June 30, 2001

21. SUBSEQUENT EVENTS

A. Tax and Revenue Anticipation Notes

On September 6, 2001, the County issued \$70,000,000 of short-term tax and revenue anticipation notes. The notes bear interest at 3.0 percent and mature on October 4, 2002.

B. Construction Commitment

Effective July 11, 2001, the County entered into a contract for rubber asphalt concrete road overlays at various locations in Central and Eastern Contra Costa County. The contract is valued at \$2,593,000.

GENERAL FUND

The General Fund accounts for legally authorized activities of the County not provided for in other restricted funds. General Fund revenues are derived from taxes, licenses, permits, franchise fees, fines, forfeitures and penalties, use of money and property, aid from other governmental agencies, charges for current services and other revenue. General Fund expenditures and encumbrances are classified by the functions of general government, public protection, public ways and facilities, health and sanitation, public assistance, education, and recreation and culture services. The resources of the General Fund are generally expended and replenished on an annual basis. The Fund will continue to exist indefinitely.

SPECIAL REVENUE FUNDS

ROAD FUNDS

These Funds were established to provide for maintenance and construction of roadways. Revenues consist primarily of the County's share of State highway user taxes and are supplemented by Federal funds.

LIBRARY FUND

This Fund was established to provide library services for all areas of the County except the City of Richmond. Property taxes provide most of the Fund's revenues.

FIRE PROTECTION FUNDS

These Special District Funds provide fire protection services to both cities and unincorporated areas in the County. They are financed primarily by property taxes.

HEALTH AND SANITATION FUNDS

These Funds provide a variety of health and sanitation services. They are financed by State grants, the County's share of the tobacco tax and user fees.

SERVICE AREAS FUNDS

These Special District Funds provide services such as lighting, park, or street maintenance to specific areas in the County. They are financed by property taxes and user charges.

FLOOD CONTROL FUNDS

These Special District Funds provide services to control flood and storm waters. Revenues are primarily received from property taxes and Federal grants.

LAW ENFORCEMENT FUNDS

These Funds provide for a variety of law enforcement services financed by property taxes, narcotics seizures and court fines and fees.

COURTS AND CRIMINAL JUSTICE FUNDS

These Funds are used for the improvement of courthouse and criminal justice facilities and related automated information systems. Revenues are derived from court fines and fees.

RECORDER/CLERK MODERNIZATION FUNDS

These Funds provide for automation of civil and small claims functions of the municipal courts and for micrographics and modernization of the Recorder's Office. Revenues received are from filing and recording fees.

LAND DEVELOPMENT FUND

This Fund was established to report growth management related activities, such as Building Inspection, Public Works engineering and Community Development growth management related services.

REDEVELOPMENT AGENCY (RDA) FUNDS

These Funds are used to account for the financial resources designated for the improvement of targeted low to moderate income housing areas and the elimination of blight.

HOUSING AUTHORITY FUNDS

These Funds are used to account for the financial resources designated for housing and housing assistance to low income residents of Contra Costa County. As of fiscal year 2000-2001 year, the Housing Authority Funds have been reclassified as an Enterprise Fund.

CHILD DEVELOPMENT FUND

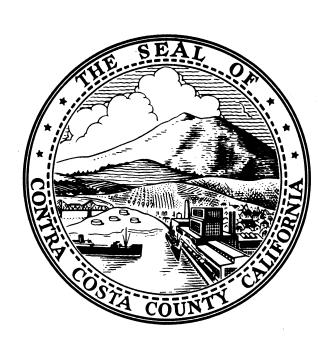

This Fund is used to account for the financial resources designated for the County's Child Development programs.

IN-HOME SUPPORTIVE SERVICES PUBLIC AUTHORITY (IHSS) FUND

This Fund is used to provide services to both providers and recipients of in-home care delivered through the In-Home Supportive Services program.

OTHER SPECIAL REVENUE FUNDS

These Funds account for the activities of several non-grant Special Revenue Funds. They include Fish and Game, Survey Monuments, Victim Assistance, Sans Crainte Drainage and County Water Districts.

DEBT SERVICE FUNDS

RECREATION AND PARK BONDS FUND

This Fund is used to accumulate monies for payment of recreation and park bonds. Financing is provided by specific property tax levies.

STORM DRAINAGE BONDS FUND

This Fund is used to accumulate monies for payment of storm drainage bonds. Financing is provided by specific property tax levies.

PUBLIC FINANCING AUTHORITY FUNDS

These Funds are used to accumulate resources for payment of general long-term debt incurred for the various financing activities of the County of Contra Costa Public Financing Authority.

PUBLIC FACILITIES CORPORATION FUNDS

These Funds are used to accumulate resources for payment of general long-term debt incurred for the various financing activities of the County of Contra Costa Public Facilities Corporation.

REDEVELOPMENT AGENCY (RDA) FUNDS

These Funds are used to accumulate resources for payment of general long-term debt incurred for the purchase of real property within the area of the Redevelopment Agency.

PENSION BOND FUND

This Fund is used to accumulate monies for payment of taxable pension obligation bonds. These bonds were issued to reduce or extinguish the County's Unfunded Actuarial Accrued Liability (UAAL).

ASSESSMENT DISTRICTS FUNDS

These Funds were established to account for the accumulation of monies for payment of Assessment District debt issued to fund Assessment District capital improvement projects.

CAPITAL PROJECTS FUNDS

REDEVELOPMENT AGENCY (RDA) FUNDS

The Redevelopment Agency was formed for the acquisition of real property and construction of improvements thereon in the County's unincorporated areas for the purpose of removing or preventing blight.

COUNTY FACILITIES FUNDS

These Funds are used to report improvements to Juvenile Hall facilities and other miscellaneous capital projects.

ASSESSMENT DISTRICTS FUNDS

These Funds were established to account for all the capital improvement projects constructed using Assessment District funds.

ENTERPRISE FUNDS

AIRPORT FUND

This Fund was established to provide for operations and maintenance of Buchanan Field aviation facilities and Byron Airport, and improvements at the Byron Airport. Revenues include receipts under rental and lease arrangements involving County airport facilities, and State and Federal aid.

HOUSING AUTHORITY FUND

This Fund is used to account for the financial resources designated for housing and housing assistance to low income residents of Contra Costa County. Previously, the Housing Authority was reported in the Special Revenue and Debt Service Funds, General Fixed Assets Account Group, and General Long Term Obligations Account Group.

COUNTY HOSPITAL FUND

This Fund was established to account for operations of the County hospital, outpatient clinics and other facilities involved in providing health services to County residents. Revenues are principally fees for patient services, payments from Federal and State programs such as Medicare, Medi-Cal and Short-Doyle, realignment revenues and subsidies from the General Fund.

HEALTH MAINTENANCE ORGANIZATION FUND

This Fund accounts for operations of the County's prepaid health plan. Revenues are primarily capitation payments by Medicare and Medi-Cal, premiums by private citizens and realignment revenues. The bulk of medical services required by the plan are provided by the County Hospital Enterprise Fund at charge rates established by the Health Services Department.

MAJOR RISK MEDICAL INSURANCE FUND

This Fund accounts for operations of the County's participation in the State's Major Risk Medical Insurance Program. The Program is designed to provide health insurance to Californians who are unable to obtain coverage on the open market. The Contra Costa Health Plan acts as the fiscal intermediary for the State. The County is not at risk for the costs of services in the Program, which is funded through a combination of subscriber premiums and State funding from tobacco tax monies. Program activities are reported in this Enterprise Fund.

INTERNAL SERVICE FUNDS

SELF-INSURANCE FUNDS

These Funds are established to account for administrative costs and for payments of claims under the various insurance programs. Revenues are primarily premiums paid by other operating funds and interest on investments. The insurance programs are:

Employee Dental Insurance
Employee Medical Insurance
Long-Term Disability Insurance (Management Employees)
Workers' Compensation Insurance County General
Fire Protection
Automotive Liability Insurance
Public (General) Liability Insurance
State Unemployment Insurance
Medical Liability Insurance
Special District Property Insurance

FIDUCIARY FUNDS

TRUST FUNDS

EXPENDABLE TRUST FUND

This Fund was created to account for the remaining assets, which are being held in trust for the City of Oakley. Following Oakley's incorporation, this Fund accounts for the assets and liabilities previously held in the County's RDA funds effective July 1, 2000.

PENSION TRUST FUND

This Fund, which is under the control of the Board of Retirement, accumulates contributions from the County, its employees and other participating employers, and earnings from the Fund's investments. Disbursements are made from the Fund for retirement allowances, disability and death benefits, and administrative expenses. This Fund includes all assets of the Employees' Retirement Association.

INVESTMENT TRUST FUND

This Fund is used to account for the assets of legally separate entities who make directed investments through the County Treasurer. These include school and community college districts, other special districts governed by local boards, regional boards and authorities, and pass-through funds for tax collections for cities. This Fund represents the assets, primarily cash and investments, and the related liability of the County to disburse these monies on demand.

AGENCY FUNDS

TAX LOSSES RESERVE

This Fund was established as a reserve for all delinquent secured taxes. It accumulates gains from tax sales and specified amounts of penalties and interest collected on delinquent secured taxes to cover possible future losses on the sale of tax-deeded property.

UNAPPORTIONED TAXES

These Funds account for unsecured taxes receivable, delinquent secured taxes, amounts which are impounded because of disputes or litigation and amounts held pending authority for apportionment.

OTHER AGENCIES

These Funds account for assets held by the County as an agent for individuals, private organizations and other governmental units. These Funds include payroll deductions clearing funds, deposits held by departments, collections clearing funds and flow through funds for Federal and State projects.

NOTE: (1) Article XIIIA, added to California Constitution by Proposition 13 in 1978, fixed the base for valuation of property subject to taxes at the full cash value which appeared on the Assessor's 1975-76 assessment roll.

COUNTY OF CONTRA COSTA GENERAL TAXES LEVIED AND COLLECTED LAST TEN FISCAL YEARS

Fiscal Year Ended June 30,	General Taxes Levied (1)	General Taxes Collected (2)
1992	\$ 584,221,870	\$ 584,221,870
1993	613,933,210	613,933,210
1994	634,276,960	634,276,960
1995	652,943,650	652,943,650
1996	671,464,620	671,464,620
1997	692,421,000	692,421,000
1998	703,148,010	703,148,010
1999	736,995,550	736,995,550
2000	782,875,880	782,875,880
2001	846,279,780	846,279,780

NOTES: (1) General taxes are calculated at 1 percent of total assessed value less local exemptions.

⁽²⁾ General County taxes collected are the same as the amounts levied, because the County follows California's alternate method of apportionment (the Teeter Plan). Under the Teeter Plan, all amounts levied are apportioned to the County and other taxing agencies regardless of whether they are collected in the current year or not. A Tax Losses Reserve Fund insures losses resulting when a property is sold for taxes, and the proceeds are insufficient to pay the outstanding amounts due.

COUNTY OF CONTRA COSTA SPECIAL ASSESSMENTS LEVIED AND COLLECTED LAST TEN FISCAL YEARS (1)

Fiscal Year Ended June 30,	Spe	ecial Assessments Levied (2)	-	Spe	ecial Assessments Collected (3)
1995	\$	4,809,648		\$	4,809,648
1996		3,693,552			3,693,552
1997		3,232,099			3,232,099
1998		2,946,192			2,946,192
1999		3,155,064			3,155,064
2000		3,027,937			3,027,937
2001		3,030,800			3,030,800

NOTES: (1) Data for this schedule are provided for years in which special assessment debt with government commitment has been reported separately in the CAFR. Data are not available for years prior to fiscal year 1994-1995.

⁽²⁾ Special assessments are amounts levied to pay special assessment debt with government commitment.

⁽³⁾ Special assessments collected are the same as the amounts levied, because the County follows California's alternate method of apportionment (the Teeter Plan). Under the Teeter Plan, all amounts levied are apportioned to the County and other taxing agencies regardless of whether they are collected in the current year or not. A Tax Losses Reserve Fund insures losses resulting when a property is sold for taxes, and the proceeds are insufficient to pay the outstanding amounts due.

COUNTY OF CONTRA COSTA PROPERTY TAX RATES (1) DIRECT AND OVERLAPPING GOVERNMENTS

LAST TEN FISCAL YEARS

Fiscal Year	County-	County	Local				
Ended	wide	Special	Special	Agency			
June 30,	Rate	Districts	Districts	Districts	Schools	Cities	Total
1992	1.0000	.0012	.0028	.0292	.0193	.0155	1.0680
1993	1.0000	.0011	.0071	.0345	.0153	.0192	1.0772
1994	1.0000	.0011	.0068	.0321	.0190	.0143	1.0733
1995	1.0000	.0010	.0071	.0314	.0206	.0147	1.0748
1996	1.0000	.0010	.0068	.0338	.0223	.0153	1.0792
1997	1.0000	.0010	.0064	.0309	.0263	.0148	1.0794
1998	1.0000	.0009	.0063	.0304	.0297	.0142	1.0815
1999	1.0000	.0008	.0061	.0262	.0342	.0139	1.0812
2000	1.0000	.0006	.0055	.0091	.0334	.0135	1.0621
2001	1.0000	.0006	.0047	.0067	.0318	.0131	1.0569

NOTE: (1) In June, 1978, California voters approved Proposition 13 which restricted the taxing power of local government agencies. Individual agencies do not establish their own property tax rates, except for voter approved indebtedness. Instead, a countywide rate is levied with the proceeds distributed to all agencies according to formulas specified by the State legislature. The countywide rate is 1 percent of full cash value (\$1 per \$100 of taxable assessed valuation). The rates shown above are percentages of assessed valuation.
